

# JNRSE 2025

13<sup>th</sup> National Days on Energy Harvesting and Storage

Bourget-du-Lac, June, 10<sup>th</sup> – 11<sup>th</sup>, 2025

## Call for papers

The **JNRSE 2025** (National Days on Energy Harvesting and Storage) will take place on **June 10-11, 2025**, organized by SYMME lab (Savoie Mont Blanc University), in **Bourget-du-Lac, France**. The aim of JNRSE 2025 conference is to bring together researchers working on energy conversion, harvesting and storage, especially at small scale, as well as on the design of complete self-powered devices. Young researchers, PhD students and post-doctoral fellows, have the opportunity to present their works through oral presentations or posters. Moreover, invited talks from renowned French and international researchers complete the program of the conference (all the presentations will be in English).

### Important dates:

- ◇ **21 April 2025**  
*Manuscript submission deadline*
- ◇ **5 May 2025**  
*Author notification*
- ◇ **10-11 June 2025**  
*JNRSE 2025 conference dates*

### Collecting contributions in all areas of micro energies, including but not limited to:

- Systems, Applications and Innovative concepts for energy
- Materials for energy conversion and energy storage
- Thermal and solar energy harvesting
- Mechanical energy harvesters
- Micro & nano generators
- Power management and energy extraction circuits
- Microbatteries and supercapacitors
- Wireless Power Transfer

### Invited speakers:

**Emmanuel Defay**  
*Luxembourg Institute of Science and Technology*

**Martial Defoort**  
*CNRS, TIMA*

**Olivier Bourgeois**  
*Institut Néel*

**Francesco Cottone**  
*University of Perugia*
